Mr. Steven Feinberg, PMP, Federal Project Director
U.S. Department of Energy – SPRU Field Office
2425 River Road
Niskayuna, N.Y. 12309-7100

Re: Stormwater Pollution Prevention Plan
SPRU Disposition Project
Niskayuna (T), Schenectady (C)

Dear Mr. Feinberg:

The Department has reviewed the Stormwater Pollution Prevention Plan (SWPPP), Revision No. 16 dated February 13, 2013, as prepared by URS on behalf of the United States Department of Energy. We hereby accept the SWPPP for activities completed during Calendar Year 2013. Please submit a complete electronic version of the final SWPPP to me by March 15, 2013.

As previously agreed, please provide a monthly summary of the SWPPP related activities to me by April 1, 2013 and monthly thereafter. The monthly summary should include copies of all inspection reports, both formal and informal, along with any repairs or modifications to existing sediment and erosion controls. We prefer that the monthly report be submitted electronically and for your information, my e-mail address is jemalcol@gw.dec.state.ny.us.

Please provide me with the planned construction activities, area(s) of disturbance, and sequence of work to be completed during CY 2014 on or before December 16, 2013. The existing SWPPP should be reviewed by your staff, revised accordingly, and then submitted for Department acceptance.

R4-DOW appreciates the efforts by your staff and URS to ensure that stormwater is being properly managed during the ongoing remedial activities at the SPRU project.

Sincerely,

James E. Malcolm, P.E.
Environmental Engineer II
Region 4 - Division of Water
